**This review is from: Aurorae Denim Yoga Bag, The Mat Sak, Fashionable, Functionable at a reasonable Price for Premium Quality. Wide and Long enough to easily fit props and big mats, Large Cargo pocket to carry accessories as well as Zip pocket to hold your valuables. (Misc.)**

I am new to yoga and purchased an Aurorae mat and ordered this this bag at the same time in the dark denim. I wasn't really sure what to look for in a bag so first I went for style and from there I diligently read the reviews. I loved that this is different from anything else I had seen. I loved it even more once I received it! The quality is excellent, the extra pockets on the front are great and there is plenty of room for my mat. I also like that it is very convenient to carry, the adjustable shoulder strap is very comfortable. I commend this company for creating such a quality product at a very reasonable price!
