Product Description

The Aurorae Yoga Slip Free Rosin Bag has been developed to aid in the prevention of slipping on your yoga mat. This accessory is similar to what gymnasts, bowlers, tennis players and baseball pitchers use where perspiration creates slipping problems when a firm grip is necessary to maximize their athletic performance.

Our Aurorae Yoga Slip Free Rosin Bag increases your gripping power and absorbs perspiration with the slight touch of the bag. The rosin should be applied to both your hands and feet, and even sometimes your yoga mat, before your practice and added as needed during your exercises. You can put some on the yoga mat itself where your hands and feet go for your downward dogs. Please make sure you store your Aurorae Yoga Slip Free Rosin Bag in the zip lock bag that it comes with to increase its life.

The Aurorae Yoga rosin materials all derive from nature. Most of the formula is from trees, plants and some rocks. Works incredibly well with the Aurorae Yoga Sport Sweat Towel to keep you from slipping on your yoga mat. We at Aurorae Yoga are always looking for simple and cost effective ways to help you improve, as well as enjoy your yoga or Pilates practice.
