

Auroraae's unique super deluxe slip free towel-mat combination bonds our eco-safe PER 5mm yoga mat with our lush, ultra-absorbent, slip free microfiber towel. You will experience no more slipping and have no more need for your bunched-up skidless towel. Synergy's 5mm thickness is ideal for your safety and comfort of your yoga mat. You will have the best of both worlds all wrapped into one. Synergy is the most innovative yoga product in the market. You will find nothing else like it.

### **"Be One With Your Mat"** **SYNERGY**

- ***Synergy works the opposite of our Classic & Northern Lights yoga mats. The wetter it gets the better your grip will be. For best results we recommend at the start of your practice to lightly spray some water on the top surface of your Synergy mat where your hands and feet go in your downward dog. This will prevent any sliding while your hands and feet are dry, as you perspire your grip will get better and your natural body chemistry will take over from your perspiration. If your hands and feet are normally moist you will probably not have to do this.***
